

**Reduce Participant Burden. Make Your Clinical Trial More Engaging.**

**GAME CHANGER. RESEARCH ENABLER.**

The Bento Biology Box makes clinical trials and clinical care available to patients everywhere by bringing the clinic to participant doorsteps with self-service tools to convert bio samples to digital data. Consumer-grade OOBE makes your decentralized clinical trial more successful.

Together, we will build the future of medicine.

Military Clinical Field Kit

Fully Customizable Clinical Trial Kit

Clinical Testing Kit

**UNIQUE FEATURES:**

- Self-service testing & bio sampling capability is Gamified and Frictionless
- Customizable for optimizing engagement with specific populations
- Workflows for human genome, microbiome, and phenome

**KEY BENEFITS:**

- Digital platform for building OOBE
- Unlimited geographic inclusion
- Sustained engagement of diverse participants
- Designed to inspire participant trust
- Consumer-grade OOBE
- Frictionless and gamified participation

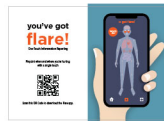

Biorepository Kit & Phenome Engine

**Designed by patients. Optimized for inclusion. Powered by Bento trust technology.**

**An Out-of-Box-Experience: Build Trust in Study Participants. Achieve Diversity and Accessibility in Clinical Trials & Biorepositories.**

**Create**

**Bc**

**Bento Bio Stakeholder Wallet**

Connects users to their Bento Digital Wallet and account, where they can control their data, earn real-time microrewards, and build their Bio Profile.

**Fl**

**You've Got Flare!**

Enables users to download the app for single-touch symptom diary and health surveys with play-to-learn games for cohort engagement.

**Collect**

**Bp**

**Beep**

Record and visualize an EKG data stream with mobile touch-technology.

**Sv**

**Salivate**

Saliva collection made quick and easy.

**Sw**

**Swoosh**

Vaginal microbiome sampling with complete comfort and privacy.

**Si**

**Sit Well**

Stool sampling when it comes most naturally.

**Sk**

**Skim**

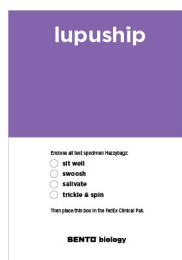

Skin sampling that's smooth and effortless.

**Ts**

**Trickle & Spin**

Capillary blood collection that separates plasma. Our animated SOPs and Bento Concierge guide users through each step.

**Return**

**HZ**

**Hazybagz**

Individual bags to secure each completed test receptacle for its safe & easy return.

**Ls**

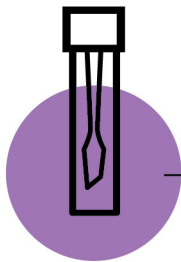

**Labship**

Customized shipping box. Ship to your lab or ours.

Stability at room temperature. Scalable for large studies. No cold chain required. FDA approved.

Make Study Participation a Modern Digital Experience

**1 Biosampling Bundles**

**User-Friendly**

Each biosampling toolkit provides a QR code with animated instructions to guide patients from start to finish.

**2 Animated SOP**

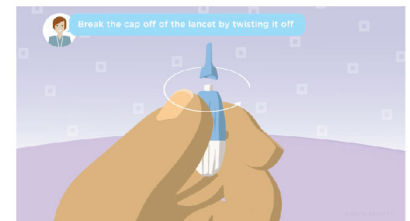

hello! let's get started.

**Digital Concierge**

**Easy-to-Follow**

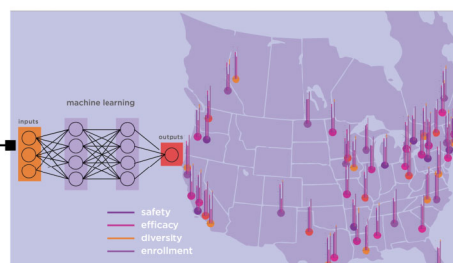

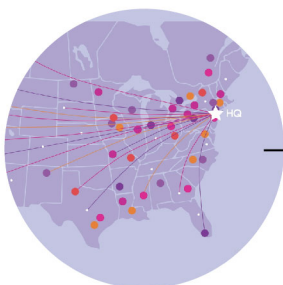

Standard Operating Procedures (SOPs) provide participants with intuitive visual instructions guided by a digital concierge.

**Universal Accessibility**

Participants love the language-free mobile technology. 24-hour helpline allows them to speak with a Bento concierge.

**3 Edge Data**

**Real-Time Situational Awareness**

Quantify participant behavior, group diversity, engagement levels, and geospatial metadata.
